guideAcademi c program and course

2024

the introduction:

The educational program is a coordinated and organized package of courses that includes procedures and experiences organized into course vocabulary. Its main purpose is to build and refine the skills of graduates, making them qualified to meet the requirements of the labor market. It is reviewed and evaluated annually through internal or external audit procedures and programs, such as the external examiner program.

The academic program description provides a brief summary of the program's main features and courses, indicating the skills that students are working to acquire based on the academic program's objectives. The importance of this description is evident in that it represents the cornerstone for obtaining program accreditation, and it is written jointly by the teaching staff under the supervision of the scientific committees in the academic departments.

This second edition of the guide includes a description of the academic program after updating the vocabulary and paragraphs of the previous guide in light of the developments and changes in the educational system in Iraq, which included a description of the academic program in its traditional form (annual, semester system), as well as adopting the generalized academic program description according to the Department of Studies' letter T M3/2906 dated 3/5/2023 with regard to programs that adopt the Bologna Process as the basis for their work.

In this regard, we cannot but emphasize the importance of writing descriptions of academic programs and courses to ensure the smooth running of the educational process.

Concepts and terminology:

Academic Program Description:The academic program description provides a concise summary of its vision, mission, and objectives, including an accurate description of the targeted learning outcomes according to specific learning strategies.

Course Description:It provides a concise summary of the most important course characteristics and the learning outcomes expected of the student, demonstrating whether they have made the most of the available learning opportunities.,It is derived from the program description.

Program vision:An ambitious vision for the future of the academic program: to be a sophisticated, inspiring, motivating, realistic, and applicable program.

Program message:The goals and activities necessary to achieve them are briefly explained, and the paths and directions of program development are identified.

Program objectives:These are statements that describe what the academic program intends to achieve within a specific time period and are measurable and observable.

Curriculum structure:All courses/study materials included in the academic program according to the approved learning system (semester, annual, Bologna

track) whether they are required (Ministry, University, College and Scientific Department) with the number of study units.

Learning outcomes: A compatible set of knowledge, skills, and values acquired by the student after the successful completion of the academic program. The learning outcomes for each course must be defined in a way that achieves the program's objectives.

Teaching and learning strategies It refers to the strategies used by faculty members to enhance student teaching and learning; these are plans followed to achieve learning objectives. In other words, it describes all classroom and extracurricular activities aimed at achieving the program's learning outcomes.

1. Program Vision

The College of Law strives to distinguish itself and combine tradition and modernity by disseminating legal information that achieves justice through the thorough preparation of its graduates to become qualified for the positions they are assigned, through the practical and theoretical study of legal theories.

2. Program message

First: To qualify the student legally, educationally, morally, and socially to lead society in defending the rights of individuals

Secondly: Providing students with up-to-date knowledge in legal disciplines

Third: Developing students' skills through scientific research and research reports to prepare a legal generation equipped with culture to serve society.

Program objectives .3

First: Preparing and qualifying a generation of legally competent graduates to work in Iraqi courts and practice the legal profession, and a generation of outstanding employees in government departments to defend the oppressed.

Second: Holding conferences that serve the community in the legal field

Third: Working with civil society organizations and counterpart colleges to spread legal culture through seminars, workshops and field visits

Fourth: Engaging with legal developments through modern technologies and virtual libraries
